FABRIC RETRACTABLE ROOF

MED QUADRA R

MED QUADRA R

The Med Quadra R boasts a beautifully slimline design with crisp angles. The frame is equipped with a fixed front rail/gutter which guides any water to the front posts, where it can escape through the integrated structural down pipes.

Each roof is custom designed to suit exact specifications and is available with integrated LED lighting to ensure entertaining can continue from day to night. Perfectly suited to commercial, residential or hospitality applications, including those in coastal areas.
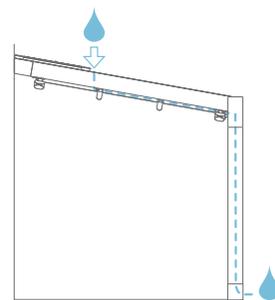

Optional side beams: ability to enclose sides with doors or blinds

DIMENSIONS

	1 Module	2 Module	3 Module
Min Width	2,500mm	5,500mm	9,000mm
Max Width	5,500mm	9,000mm	12,000mm
Min Projection	2,000mm	2,000mm	2,000mm
Max Projection	6,500mm	6,500mm	6,000mm

FEATURES & BENEFITS

- Provides UV, heat & weather protection.
- Waterproof PVC fabric - available in a wide range of colours.
- Architectural design & finishing - streamline fixings to the wall & ground.
- Leaning structure with integrated gutter & down pipes - water drains out through the posts.
- Ability to protect large outdoor areas - multiple modules can be connected with support bars.
- Ability to be partially or fully retracted as required.
- When fully retracted the fabric is protected by a roof cover.
- Tested to withstand winds that exert a maximum pressure of 110Nm or similar to a persistent wind speed of 49km/hr.
- Powder coat finishes available for aluminium frame, support bars & front rail – durable with superior colour retention.
- Motorised (240v tubular motor) with remote control.
- 5 year manufacturers warranty.

OPTIONAL EXTRAS

- LED spotlights - integrated into the support profiles.
- Sun/wind or rain sensor.
- 13.QU - outdoor drop blinds.
- Glisse -sliding glass doors.
- Electric heater.
