

Designed by **Gibus**

ZERO+ Conservatory Awning / Roof

Vanguard

“Six generations of industry experience”

FEATURES & BENEFITS

- An architecturally & aesthetically superior shade structure - perfectly suited for outdoor areas, pergolas & conservatories.
- Suitable for residential, commercial or hospitality applications.
- Ability to fix to the wall or ceiling.
- Motorised (240v concealed tubular motor) with hand held remote control & optional wind/sun sensor (automatically retracts awning/roof once preset thresholds are reached)
- Front bar extends the fabric along the guides which rest on a custom designed front crosspiece structure.
- Fabric secured in side guides (Zip model) ensures there are no 'blow outs' or gaps - best option for windy conditions & light rain.
- Fabric & front bar have the ability to cantilever up to 500mm either side if desired (Slide model) - fabric edges are visible.
- Extruded aluminium housing protects & prolongs fabric life when the awning/roof is retracted.
- Frame, side guides & housing available in a large range of powder coat colours.
- Tested to withstand winds that exert a maximum pressure of 110Nm or similar to a persistent wind speed of 49km/hr.
- 15° inclination required to ensure water run off.
- 5 year warranty*

*Conditions apply see Vanguard /Gibus warranty for full details.

SPECIFICATIONS

	Zip	Basic / Slide
Min Width	2,000mm	2,000mm
Max Width	6,000mm	5,000mm
Min Projection	2,000mm	2,000mm
Max Projection	6,000mm	6,000mm

ZERO+ - SOPHISTICATED SHADING MADE SIMPLE.

Zero+ Basic: Fabric is fixed to front profile bar which extends along the side tracks. The edges of the fabric are slightly inset and visible from underneath.

Zero+ ZIP: Fabric is fixed to front profile bar and side tracks. It is held in place with hidden zips which run along either edge, and slide into the guides to eliminate any light gap. Stainless steel springs ensure the fabric remains taut in windy conditions.

Zero+ Slide: Fabric is fixed to front profile bar which extends along the tracks. These run underneath giving the flexibility to have the bar and fabric cantilever up to 500mm on either side if desired.

LIFESTYLE SOLUTIONS

Create a complete outdoor solution by combining your Zero+ with a complimenting product.

Recommended products:

- Raya LED light bar - fixes to wall underneath.
- Wind/sun sensors.
- Electric heater.
